SHARING
SECRETS

JANUARY 2007

Compiled by Laura Bauer & Debra Bushweit Galliani

“What are your favorite gifts for gardeners?”

There was so much going on at our December meeting that we received few written responses to our question. In addition to the following responses, members said they liked giving and receiving memberships to botanic gardens and to our Society, gardening classes, garden gloves, a favorite garden tool, and a water meter. These gift ideas are useful year round.

Our favorite gift was a plant to our friend who admired it in our garden. - *RC & BC*

I like gift cards because the recipient can get a plant or product they really want. - *KB*

A P-Touch label maker. It's a fun play thing and great plant labeler. - *DK*
